

HUGGLE - A SHOP, CAFÉ AND PLAYSPACE IN ONE!

November 24, 2010

Imagine a children's shop stocked full of great toys, baby equipment, children's decor and stylish furniture... doesn't that alone sound impressive? Now, imagine this store has buggy parking, kiddie toilets and baby changing facilities, a little café, and an indoor play space for kids - aaahhh, it's like heaven for parents! This heaven is called **Huggle**, and it's a newly opened shop located in Swiss Cottage (just opposite the **leisure centre**). It was started by a local husband and wife team who spent two years researching the market before opening up their shop and who completely get what it's like to be a new parent struggling to find the best products for their kids.
