

## VENIERO'S PASTICCERIA

June 29, 2010

Without fail... every year since birth, my entire family has celebrated their birthday with a cake from [Veniero's](#). There simply is no substitute, and frankly, a birthday just isn't a birthday without one. The old-school Italian Pasticceria has been around since the beginning of time and is a wonderful place to bring your kids for an afternoon treat. There are cases filled with freshly made Cannoli's, Eclairs, Fruit Tarts and my personal favorite, THE RAINBOW COOKIE. Quite possibly as addictive as heroin, and Veniero's has the best ones on the planet.

There is a large space in the back to sit down and enjoy them with a cappuccino and they are open late on the weekends so it's a great place to bring kids for an after dinner treat. Try to hit it at off hours and NEVER during the holidays as it is crowded. By the way - I got this image off of one of my favorite NY Food Oriented Websites ?The Smitten Kitchen? which has the [recipe](#). And luckily once the guilt sets in... [Liquiteria](#) is just down the street!!
